

Hanieh Zaab

Full-Stack Software Developer

London, UK • hanieh.zaab@gmail.com • 07397 396 069 . [LinkedIn](#) [Github](#) [Website](#)

An adaptable professional with a first-class bachelor's degree, currently seeking a position in Software Engineering to fully utilise my technical, analytical, and programming skills. Thrives in independent and collaborative work environments, demonstrating reliability, trustworthiness, and a strong work ethic. Possesses a solid foundation in web development and extensive technical skills across coding fundamentals, front-end, and back-end development. With a logical mindset and a problem-solving approach, brings a unique blend of technical and transferable accounting skills from previous experience as an accountant into the tech field. Eager to continue learning and integrate acquired skills into future pursuits.

Technical Skills

- **Front-End Development:** HTML, CSS, Bootstrap, JavaScript, DOM Manipulation, React
 - **Back-End Development:** Python, SQL, Node.js, Express.js, RESTful APIs, MVC Model
 - **Development Practices:** Pair Programming, Object Oriented Programming, TDD
 - **Tools and Version Control:** Git & Github, Docker, Regular Expressions
 - **Project Management:** Agile methodologies, Kanban, Jira
-

PROFESSIONAL EXPERIENCE

Trainee Software Engineer, La Fosse

Sep - Dec 2023

- Advancing expertise in JavaScript, MVC structure, React, Node.js and Express.js
- Elevating my skills in Python, Flask, styling and SQL database management
- Fully engaged in hands-on projects, applying theoretical knowledge to practical solutions
- Improving proficiency across diverse testing methodologies, such as unit testing, end to end testing, React testing, front-end and back-end testing
- Worked in an agile environment, managing two team projects as the project manager

Trainee Software Engineer, Northcoders

Jan - Apr 2023

- Completed an intense 13-week bootcamp, elevating my software development skills
- Trained comprehensively in backend technologies: Node.js, MVC model, APIs, Express.js, SQL
- Acquired expertise in front-end technologies: DOM manipulation, HTML, CSS, React
- Actively engaged in daily sprints and hands-on projects
- Developed a solution-oriented mindset and attention to detail through challenging projects
- Developed adaptability, resilience, and ability to thrive under pressure

Career Transition

Sep 2022 – Dec 2022
